DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth M. Berner Reg. No. 37,093 on October 7, 2004.

The application has been amended as follows:

1) In claim 10 line 6, the limitation "the spectra" has been changed to: --a spectra of the frequency domain--

Allowable Subject Matter

Claims 1-20 are allowed.

Response to Amendment

The following is an examiner's statement of reasons for allowance: With respect to claims 1 and 10, the prior art fails to teach or render obvious combining the pulses with the same carrier frequency in a burst; transforming the obtained signals from time to frequency domain, and deconvoluting of a spectra of the frequency domain. The prior art teaches deconvoluting of a frequency domain signals. However, none of the prior arts either singularly or in combination teaches the claimed system.

Art Unit: 3662

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior art show various radar signal processing systems.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Isam A Alsomiri whose telephone number is 703-305-5702. The examiner can normally be reached on Monday-Thursday and every other Friday (8:30-5:00).
